

Access Introduction

Course #: MA-100 **Duration:** 1 day

Prerequisites

None.

Details

This course covers the basic skills and concepts students need to use Microsoft Access (2013, 2016, 2019, Office 365) productively and efficiently. After an introduction to the Access environment, you will learn how to plan databases and create tables. Then you will learn to organize fields and records and to work with data entry rules. You will learn how to create basic queries and how to work with forms and reports.

This course will help you prepare for the Microsoft Office Specialist exam. For comprehensive certification training, students should complete the Basic, Intermediate, and Advanced courses for Access.

Software Needed

Microsoft Office 2013 or higher (2013, 2016, 2019, or Office 365)
