

PowerPoint Introduction

Course #: MPP-100 **Duration:** 1 day

Prerequisites

None.

Details

This course covers the basic functions and features of PowerPoint. After an introduction to PowerPoint's window components, you will open and run a presentation and switch between views. You will create a basic presentation and add content, arrange, insert, and delete slides, and apply templates and design themes. Then, you will learn how to create and edit shapes, insert and modify WordArt objects and pictures, and work with tables, charts, and diagrams. Finally, you will learn how to proof a presentation, create speaker notes, and present and share presentations.

This course will help students prepare for the Microsoft Office Specialist exam for PowerPoint. For comprehensive certification training, students should complete the Basic and Advanced courses for PowerPoint.

Software Needed

- Microsoft Office 2013 or higher (2013, 2016, 2019, or Office 365)
