

## Storyline 3 and 360 - Introduction

**Course #:** SL-700      **Duration:** 2 days

### Prerequisites

None.

### Details

Storyline is a powerful eLearning authoring tool that allows you to create interactive, professional-looking courses, presentations, and quizzes. Our 2-day introductory course teaches course developers how to create training titles, demonstrations, interactive simulations, branching scenarios, and quizzes without any programming. You will learn the Storyline interface, understand scenes, slides, timeline features, and layers, publish your project as HTML5 and SWF, add narration by recording or importing audio, increase user interactivity with click, highlight, and text entry boxes, learn how to increase user interactivity and insert question and scoring slides, learn how to branch to different Slides and Scenes, import PowerPoint slides into a project, and create links to websites and to another project.
